The book is an ideal reference for middle-level and top-level managers as they are involved in complex negotiating situations.

The author proved the techniques in the book actually do work. He negotiated with us a special price that we should provide your company for more copies. With a suggested retail of \$10.95, we have agreed to a \$7.00 price for any of your managers who wish to receive copies.

Please have them write to me directly or have your purchasing department contact me for bulk orders and I'll see that copies are rushed to them.

I look forward to your reaction.

Sincerely,

STAT
